Cabin FAQS

Using your Projector

Mad Swans in the Mendips

You'll find your projector in one of the following locations:

- **Double Cabins:** in the cupboard above the sink
- **Twin & accessible double cabins:** above the beds

Your controls are located:

- **Double Cabins:** on the side of the bedside desk closest to the door
- **Twin lodges:** on the wall next to the bed closest to the door

To get started:

1. Use the silver remote to turn the projector on - Point it directly at the projector.
2. Once the home screen appears, switch to the small black Roku remote.
3. Press the Home button at the top of the remote.
4. On the login screen, enter your check-out date.
5. Log in to access all of your usual apps to enjoy during your stay.

Your details and login information will be automatically deleted on your check-out date.

Cabin FAQS

Cabin Heating

Each cabin has its own heating system. You'll find the control pad near your main door.

1. Wake the thermostat: Touch the screen to activate it.
2. Adjust temperature: Press the temperature value on the screen and use the arrows to decrease or increase the setting.
3. Access menus: Press the desired item on the screen to open its menu.
4. Confirm changes: Press the confirmation icon (often in the top right) to save settings.
5. Cancel changes: Press the back arrow (top left) to return to the previous screen without saving.

Heated towel rails:

Use the button on the lower left-hand side to turn on or off, or set a 2-hour or a 4-hour timer. Please note: they can get hot!

OPAL One Coffee Machine

1. Prepare the Machine

- Fill the water tank via the lid on top or by removing it at the back.
- Turn on the machine using the power button.
- Wait until the lights stop flashing - this means it's ready to brew.

2. Brew Your Coffee

- Insert your chosen OPAL One pod.
- Lower the handle firmly to secure.
- Select your preferred brew size using one of the three buttons.

3. Finish & Eject

- The machine stops automatically when your coffee is ready.
- Lift the handle to eject the used pod into the bin.
